

## **DUCATI STREETFIGHTER (2009)**

SLIP-ON STREET LEGAL & SLIP-ON OPEN EXHAUST SYSTEM

The Akrapovic SLIP-ON OPEN and STREET LEGAL exhaust system for the Ducati Streetfighter offers a great balance between price and performance, and represents the first step in the exhaust system tuning process. In addition to performance, the twin hexagonal shaped mufflers with titanium or carbon fiber muffler sleeve adds a clean racing look. Additionally, the Ducati will put out a much more powerful racing sound. You will also save up to 3.45 kg compared to the stock Ducati exhaust system. The SLIP-ON street legal system is homologated and ready for road use. In both configurations, mufflers include removable noise dampers.

**PERFORMANCE**

Measurements of the Akrapovic SLIP-ON open system on the DUCATI Streetfighter without muffler insert:

Power & Torque: The Akrapovic SLIP-ON open system greatly increases the potential of the big twin cylinder engine. Both power and torque are increased over the entire rpm range, with the greatest increase shown in the middle and top of the range. We measured 147.79 HP at 9929 rpm, while the max. increased power of 4.95 HP was measured at 9850 rpm. That results in a much smoother ride as the biggest gain of power starts from 4500 rpm.
